

> Reduce fraud and comply with government filing rules with our database of 8.5 million Employer Identification Numbers.

OVERVIEW:

EIN Finder provides a robust database of Employer Identification Numbers (EINs) so you can accurately and efficiently fill out tax documents and customs forms, and prevent fraud.

- 8.5 million EINs
- Legal and D.B.A company name search
- IRS-verification scale
- Data licensing and FASTmatch bulk EIN matching options
- Monthly subscriptions available for as low as \$149

What is the EIN Finder?

This extensive database of Employer Identification Numbers (EINs) offers a better way to match the legal and D.B.A (doing business as) company names, addresses and phone numbers of your clients and vendors to their correct tax IDs. This online resource delivers a suite of tools that enable you to determine which EIN is most appropriate for government documents and fraud prevention.

Subscribers use our data to correctly fill out customs forms for imports and exports, 1099s, and other tax documents to avoid financial penalties for errors. EIN Finder also helps our customers verify that their clients and vendors are who they say they are, which minimizes fraud and supports compliance with "Know Your Customer" laws.

Subscriptions are billed monthly for as low as \$149 per month
